

Merchant Category Codes and Groups Directory

American Express @ Work Reporting Reference

June 2008

NOTE: This document should be read only by the intended recipients. Any disclosure, copying or distributing of this document is strictly prohibited.

The Merchant Category Codes (MCC) reproduced in this document are done so with the permission of the International Organization for Standardization (ISO) and the American National Standards Institute (ANSI).

Introduction

About MCC

Merchant Category Code, or MCC, is a four-digit merchant classification code that identifies the merchant by their business line. It is similar to a Standard Industrial Classification (SIC) code, but it is broader in scope.

As an International Standards Organization (ISO) standard for representing “industry classifications”, MCC provides a convenient and reliable way to identify and categorize reportable transactions. It can also be used for blocking purchases for specific companies or categories of businesses, assuming account limits and other controls do not intervene.

American Express uses 28 MCC groups that denote various categories (e.g., 2 Amusement and Entertainment, 28 Wholesale Trade). These groups are further subdivided into 281 MCC codes that denote various types of business (e.g., 742 Veterinary Services, 4511 Airlines and Air Carriers, 7011 Lodging Hotels, Motels, and Resorts).

About this Directory

This directory is intended as a reference for American Express @ Work Reporting tool customers who use MCC groups and codes in their Corporate Card and Corporate Purchasing Solutions customized reporting.

Table of Contents
